***Pure Love***

Video Performance, Animation

1 min 13 sec

2025

*Pure Love* features the dance performance of a young woman dressed in white, which was subsequently animated frame-by-frame with blue ornaments. As she moves elegantly through a minimalist space, she interacts with her surroundings, guided by the sounds of a violin.

In this work, Gegaj shares his vision of pure love. He places this in relation to love within a conservative environment, shaped by the experiences of his youth.
